INFORMATION TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR AGENCY

Auriga's Information Technology (IT) approach is based on current best practice IT methodologies that we have successfully developed and applied in many past projects. Our approach is based on our solid foundation, as an ISO 9001 compliant company.

Auriga Corporation provides a wide variety of consulting services in the area of Information Technology, Electronic Commerce and Telecommunication Systems to local government agencies, State and Federal agencies and to private enterprises. The principal consultants have on the average more than twenty-five years of experience in IT and Telecommunications working for system suppliers and consulting firms, before joining the company.

We have a combined experience of more than 200 man-years in the area of design specification, procurement, IT, testing and commissioning of computer, control and communication systems both in the United States and around the world.

Auriga is a premier provider of IT telecommunication consulting services. We have provided our services to numerous state and local agencies.

Our experience in providing IT support is extensive. Auriga follows a rigorous IT process. While we apply the process to nearly every project we approach, the ability to develop, implement and manage the project plan is key to our success in this area. Success at Auriga results from our consultants and their ability to deliver IT solutions on time and on budget.

Auriga is certified as a *Small Business* by State of California (DGS). In addition, it is certified as a *Disadvantage Business Enterprise* (DBE) by the Bay Area Rapid Transit District (BART), and by the WMATA and Minority Business Enterprise (MBE) by the City and County of San Francisco and by Supplier Clearinghouse for the Utility Supplier Diversity Program of the California Public Utilities Commission. Auriga also has Master Services Agreements with the State of California, and the City and County of Los Angeles.
