

AURIGA CORPORATION PROJECT MANAGEMENT SERVICES

For the past twenty years, Auriga Corporation has developed an industry-wide reputation for high quality and value-added services. Auriga is recognized as a premier provider of Project Management, Project Oversight and Independent Verification and Validation services. Auriga's Project Management approach is based on current best-practice methodologies that have been successfully developed and applied in many past projects. Auriga's consultants monitor and follow leading trends in project management, including guidelines and procedures from authorities such as the Project Management Institute (PMI), Project Management Body of Knowledge (PMBOK) and the California Project Management Methodology (CA-PMM) to maintain current knowledge in the Project Management field.

Auriga has a solid foundation as an ISO 9001 compliant company. Principal consultants at Auriga have an average of twenty-five years of prior experience in Project Management working for public and private sector firms.

Auriga's client base is located throughout California, the United States and in countries around the world. Auriga's clients include *federal, state and local government agencies, electric and water utilities and transit agencies.*

REPRESENTATIVE PROJECT MANAGEMENT

- Project Management Services for the Transition of the Department of Mental Health (DMH) and the Department of Alcohol and Drug (DAD) Programs to the California Department of Health Care Service (DHCS)
- Project Management Services for the Project Resourcing and Schedule Management (PRSM) System implementation - California Department of Transportation (Caltrans)
- Independent Verification and Validation (IV&V) Services for the Statewide Enhanced Radio Communications System (CHPERS) - California Highway Patrol (CHP)
- Project Oversight and Independent Verification & Validation (IV&V) for the Emerging Threats to Food Production Data Management System - California Department of Food and Agriculture (CDFA)
- Project Management and Technical Services for the consolidation and migration of distributed control system to a centralized control for the State Water Project (SWP) - California Department of Water Resources (DWR)
- Project Management Services for PeopleSoft ERP upgrade - San Mateo County Transit District (SamTrans)
- Contract Management Services for the Project Management Office (PMO) - California High-Speed Rail Authority (CHSRA)

California Department of Transportation (Caltrans)

Auriga is currently providing project management services to support the development of a Project Resourcing and Schedule Management (PRSM) system. The PRSM Project replaces the existing, outdated, project management software with a new project management application and implements new project delivery processes, roles and responsibilities. The software component of PRSM is a Commercial-Off-The-Shelf (COTS) software application that will be used to manage the schedule, resource and cost data for all of the Caltrans' Capital Projects and to integrate project data with several of the Caltrans' other systems (Staff Central and E-FIS). Auriga will oversee the design, development and deployment and will manage the PRSM project on behalf of Caltrans.

AURIGA CORPORATION PROJECT MANAGEMENT SERVICES

SCOPE OF SERVICES:

Auriga Corporation follows a well structured and proven approach to project management. This approach incorporates both technical project management and financial contract management, as shown in the diagram below:

California Highway Patrol (CHP)

For over three years, Auriga has been performing Independent Verification and Validation (IV&V) and Risk Assessment Services for the California Highway Patrol Enhanced Radio System (CHPERS) project.

The scope of this 5-to-7 year project, valued at \$492 Million, is to replace and enhance the radio system used throughout the State of California by the CHP. Duties include defining and documenting risks on the overall project and working with CHP senior management to identify mitigation strategies for those risks. This also includes working with both the CHP and the DGS Telecommunications Division (TD) staff to determine viable solutions for emerging issues in the radio communications upgrade.
